

Custom Class — Educational Offerings

Purpose & Promise

Custom Class empowers families by providing customizable support tailored to the needs of learners to help them meet goals in academics, extra curricular activities, and life skills.

Custom Class serves learners K-12 and is designed around community and family partnership. We combine flexibility and funding for families to meet learning and development goals for their children. Everything from athletics, arts, career exploration, and community projects can all be part of your child's education, recognizing learning wherever it authentically happens.

Locations we Serve

We serve students throughout the state of Utah, with options to join others in person at our family service center located at

57 N. 500 E

St George UT, 84770

Learning Venues:

- **Online** with your choice of tools and curriculum to support personalized learning.
- **On-site** at Family Service Centers (tutoring, workshops, community events).
- **Community Offerings** (museums, businesses, service orgs, extra curricular activities).

Family Service Centers

Purpose: To create welcoming hubs where students and families access tutoring, mentoring, project space, and services.

Features:

- Open workspace with tables/chairs for collaborative or quiet study.
- Maker tools available (3D printers, laser engravers, etc.).
- Small rooms for counseling and meetings.
- Workshops for families on learning supports, technology, and college/career planning.

Family Partnership is Fundamental

- **A Plan Design with You:** Families select curriculum, needed supplies, and support.
- **On Demand Support:** Access to certified educators, tutors, and community resources.

Supporting all your Child's Needs

- Providing the customized curriculum, supplies, support, and funding needed.
- Empowering their development in academics, extra curricular activities, and life skills.
- Supporting the special needs of each individual.

Community Programs FULLY FUNDED

Custom Class braids opportunities and funding from city departments (parks & recreation, libraries, arts councils), the local university (extension programs, service-learning studios, research labs, tutoring), and community organizations (Boys & Girls Clubs, chambers of commerce, museums, makerspaces, youth sports/arts). Together we co-design after-school programs, weekend workshops, summer intensives and more to serve you.

Community Internships FULLY FUNDED

Beginning in upper middle grades and scaling in high school, students can complete micro-internships and semester-length placements with local businesses, nonprofits, and agencies aligned to their plans. Experiences may be paid or unpaid per partner policy and local regulations; Custom Class supports logistics—orientation, scheduling, basic workplace readiness, and, where feasible, transportation—and ensures compliance with youth employment rules and insurance requirements. Many internships culminate in capstone projects or lead to industry credentials and references.

College Options FULLY FUNDED

Custom Class partners with colleges and universities to offer credit-bearing pathways that can carry a student from general education courses to an associate degree by high school graduation and even as far as earning a bachelor's degree by the time they are 18 years old with credits appearing on both high school and college transcripts.

Contact & Next Steps

For more information we welcome conversations with families and community organizations. We look forward to working with you to customize a learning pathway that helps every student thrive.
