

Policy Type: Operational Policy

Title: Student Transportation Policy

Effective: May 22nd, 2025

Purpose

The purpose of this policy is to outline how student transportation is handled at Custom Class Charter School (Custom Class), and to establish rules and requirements related to student transportation in order to ensure student safety. This policy is intended to fulfill the requirements set forth in Utah Administrative Code Rule R277-601.

Policy and Procedure

1. No Regular School Buses

Custom Class Charter School does not receive state transportation funding and therefore does not own or operate regular school buses. Custom Class does not provide daily transportation for students to or from the school, except in cases where transportation is legally required.

2. Student Transportation for School Activities

Custom Class may provide transportation for students using their smaller buses and similar vehicles, charter buses, or through public or private commercial transportation in connection with field trips, extracurricular events, or other school-sponsored activities.. All selected transportation providers must meet or exceed industry safety standards and offer reliable and professional services.

3. Parent/Guardian Consent

Parents or guardians will be notified whenever Custom Class intends to provide transportation for students. Transportation for school activities will require written consent from a student's parent or guardian before the student may be transported.

4. Driver and Vehicle Standards

Charter bus operators and, to the extent practicable, any other drivers approved by Custom Class to transport students shall comply with applicable safety and conduct standards as outlined in R277-601-3. The school will enforce these standards as required by Utah law.

Certification

The undersigned officers and/or Board of Directors of Custom Class Charter School certify that this Student Transportation Policy was duly adopted as of [Insert Effective Date].
