

Policy Type: Student Health Policy

Title: Local School Wellness Policy

Effective: May 20th, 2026

Purpose

The purpose of this Local School Wellness Policy is to establish general expectations, responsibilities, and procedures for Custom Class Charter School (“Custom Class”) in a manner consistent with applicable law, Utah State Board of Education rule, and the school’s flexible instructional model.

1. General Policy Statement

Custom Class adopts this policy to support lawful, safe, effective, and mission-aligned school operations. The Governing Board authorizes school administration to implement this policy through procedures, forms, training, and operational practices that are appropriate for Custom Class’s online, hybrid, community-based, and in-person programs.

This policy is intended to be applied flexibly and reasonably. When operational details are not specifically stated in this policy, school administration may establish procedures consistent with the policy, applicable law, and Board direction.

2. Wellness Goals

If Custom Class participates in federal child nutrition programs or is otherwise required to maintain a wellness policy, the school shall promote student wellness through reasonable goals for nutrition education, physical activity, food service, and other school-based wellness activities.

Wellness implementation may be adapted to Custom Class’s online, hybrid, home-based, and community-based learning environments.

3. Nutrition Standards and Community Involvement

Foods and beverages made available through covered school programs shall comply with applicable standards. Custom Class may involve parents, students, staff, administrators, and community members in wellness policy review and implementation as appropriate.

Administration and Review

School administration may maintain procedures, forms, training materials, agreements, and internal guidance necessary to implement this policy. The Governing Board may review and revise this policy periodically to reflect legal updates, USBE guidance, operational needs, or Board direction.

Nothing in this policy creates a private right of action, contract right, or entitlement beyond that required by applicable law. If any provision conflicts with controlling law, the law shall govern and the remaining provisions shall continue in effect.
