Title: School Safety Policy

Effective: May 20th, 2026

Purpose

The purpose of this School Safety Policy is to establish general expectations, responsibilities, and procedures for Custom Class Charter School (“Custom Class”) in a manner consistent with applicable law, Utah State Board of Education rule, and the school’s flexible instructional model.

1. General Policy Statement

Custom Class adopts this policy to support lawful, safe, effective, and mission-aligned school operations. The Governing Board authorizes school administration to implement this policy through procedures, forms, training, and operational practices that are appropriate for Custom Class’s online, hybrid, community-based, and in-person programs.

This policy is intended to be applied flexibly and reasonably. When operational details are not specifically stated in this policy, school administration may establish procedures consistent with the policy, applicable law, and Board direction.

2. School Safety Program

Custom Class shall maintain school safety procedures designed to prevent, prepare for, respond to, and recover from threats to student and staff safety. Procedures may address threat assessment, emergency response, parent reunification, incident reporting, behavioral supports, visitor management, and coordination with public safety partners.

The school may adapt safety procedures to leased facilities, family service centers, community sites, online learning, and school-sponsored activities.

3. Training and Review

Custom Class may provide safety training to employees, students, volunteers, and families as appropriate. Safety procedures shall be reviewed periodically and updated based on legal requirements, facility changes, incidents, or identified risks.

Administration and Review

School administration may maintain procedures, forms, training materials, agreements, and internal guidance necessary to implement this policy. The Governing Board may review and revise this policy periodically to reflect legal updates, USBE guidance, operational needs, or Board direction.

Nothing in this policy creates a private right of action, contract right, or entitlement beyond that required by applicable law. If any provision conflicts with controlling law, the law shall govern and the remaining provisions shall continue in effect.
